1 GENERAL

1.1 Reconciliation

Any matters not provided for in these rules, will be in accordance with World Skate Statutes.

1.2 International Competitions

All International events between two or more National Federations from at least two different continents must be organized with the rules of World Skate Artistic Technical Commission (ATC).

Members of World Skate ATC, Continental or Area confederations may request that top-class international events that they organize on a regular basis, be recognized by World Skate ATC. This can be done provided there is no deviation from the rules of ATC or World Skate.

Events that have gained such recognition from World Skate ATC will have first priority on the international calendar, enabling the organizing member, Continental or Area confederation to have first choice of dates, providing that such dates and venues are established at least nine (9) months in advance. Once such dates are established, they can only be altered by a formal written request from the organizers.

Organization fee and entry fees should be agreed with World Skate.

2 CHAMPIONSHIPS REGULATIONS

Note: general rules apply for all artistic roller skating disciplines, including inline.

CATEGORY	AGE
Tots	8 and 9 years old
Minis	10 and 11 years old
Espoir	12 and 13 years old
Cadet	14 and 15 years old
Youth	16 years old
Junior	17 and 18 years old
Senior	19 years old on

2.1 Categories in International Championships

Note: the AGE column in the table above refers to the age the skater is turning in the year of the competition (that is, in the calendar year beings 1st of January through to and including the 31st of December, in the year of the competition).

For pairs and couple dance, the category will be determined by the age of on the oldest partner.

To be eligible to compete in any category, a skater who has competed previously in a higher category in any international or continental World Skate event/s must not compete in a lower one after that.

2.2 Age Categories for World Skate ATC Championships

CATEGORY	AGE
Junior	12 to 18 years old
Senior	12 years old and above

NOTE: the MINIMUM age for competing at the World Skate ATC Championships is 12. Therefore, skaters MUST be at least 12 years of age before the 1st of January in the year of the event to compete.

Skaters who are at least 12 before the 1st of January and, not yet 19 by and including the 31st of December in the year of the World Skate ATC Championships are eligible to compete in Junior.

Skaters who are at least 12 before the 1st of January in the year of the World Skate ATC Championships will be eligible to skate Senior.

2.3 World Skate ATC Championships

World Skate ATC Championships shall be held for the following disciplines: figures, free skating, pairs, dance, solo dance, inline, show and precision skating. In the case of figures, free skating, solo dance and inline, separate events will be conducted for men and women.

2.4 Entry procedure at World Championships

The entries will be managed through the World Skate platform.

Senior Free Skating and Figures:

- Countries in the first 10th places in the previous year can enter three (3) skaters.
- Countries placing 11th to 20th inclusive in the previous year can enter two (2) skaters.
- Countries placing 21st and below in the previous year can enter one (1) skater.
- If the country has not participated in the last World Championships in a particular event, it will be allowed to enter just one (1) skater in that event.

Senior and Junior Solo Dance; Junior Figures, Free Skating and Inline Junior and Senior:

- Countries in the first 20th places in the previous year can enter two (2) skaters.
- Countries from 21st and below in the previous year can enter one (1) skater.
- If the country has not participated in the last World Championships, it will be allowed to enter just one (1) skater.

Each member National Federation may enter, for Seniors events, a maximum of three (3) teams in each of the following events: pairs skating, dance skating. For junior events a maximum of two (2) teams of the following: pairs skating, dance skating.

Each member National Federation may enter a maximum of three (3) teams for Precision, three (3) teams for small and large Show, and a maximum of two (2) teams for Quartets events.

World Championship entry fees must be paid in US dollars or the equivalent in euros, by each participating National Federation as follows for single, couples and pairs.

Note: pairs and couples on this information are counted as one.

# OF SKATERS	FEDERATION FEE	# OFFICIAL COACHES	
	JUNIOR		
1 to 8	\$100	1	
9 to 16	\$200	2	
	SENIOR		
1 to 7	\$115	1	
8 to 14	\$230	2	
15 to 22	\$340	3	
Junior and senior fee per participant per event		\$80	
Precision, show team fee per participant (no federation fee)		\$60	

For precision, small and large show, 1 delegate, 2 coaches and 1 choreographer.

For quartets 1 delegate, 1 coach and 1 choreographer.

All fees for National Federations and participants must be paid into the World Skate account within the deadline decided by ATC. The National Federations, which have paid through bank transfer, must show the receipt on the accreditation day.

Skaters may enter more than one event but must pay the fee for each event entered.

It is mandatory when completing registration on the platform to attach:

- An image of the first page of the passport in jpg, png.
- For dance, the music certificate in pdf.
- The order of the elements format in pdf.
- The music in mp3, mp4, etc. The file must be named: Skater's Name_Skater's Last Name Category (junior/senior) Modality (free skating, pairs, dance) short or long program, style dance or free dance. For Show and Precision, the name of the group and the title of the show.

All the other documents must be named with country_category_discipline_document (passport, certificate or order).

2.5 Draw rules

Each group shall be composed of no more than six (6) contestants/teams for Free skating, Dance and inline, and no more than five (5) couples for Pairs.

If the technical commission (in exceptional cases) accepts late entries, then the skater(s)/group entered after the draw has been done, will skate as first.

If one or more competitors decide to withdraw their participation before the draw of that segment, the groups can be re-organized. If the withdrawal(s) is announced after the draw for the starting order of the following segment, then the starting order and warm-up groups will not be changed, and the spot of the withdrawn competitor(s) remains empty.

2.6 Figures

The total of figure contestants will be divided in four (4) groups or three (3) groups for junior and senior, with the first skater skating the first figures and the first contestant in the second group starting the second figure and so on. If the number of participants in the figure event cannot be evenly divided into three/four groups, each group will have an additional contestant.

2.7 Free skating, inline, pairs, solo dance and dance

Short program and style dance: this rule will be applied if there is more than one (1) group in the competition.

If the number of skaters entered the previous year was more than 15, the top 10 skaters will be drawn as the last ten skaters, split into two groups of five. If there were 15 or less, the top five skaters will be drawn as the last group.

For Senior, in the case where one of those skaters is not competing in the current year, the medalists in the previous year at the Junior Championship that are moving up to Senior, will be placed in 6th to 10th place if there are 2 groups, or if only one group, all will be drawn together.

Long program and free dance:

- The order of skating will be established by reversing the placement obtained from the short program/style dance.
- The final group containing the highest placed skaters/teams will consist of no more than ten (10) contestants and shall be composed of two sub-groups of no more than five (5) skaters/teams in each group. If the remaining number of contestants cannot be divided into even groups the first group or, if necessary, the first groups shall contain an extra skater/team. In any case, the group containing the highest place skaters/teams shall constitute the final group.
- It is not necessary for all long program groups to compete on the same day.

2.8 Show and Precision

The top five (5) teams from the previous World Championships will be drawn as the last five (5) to present their program. If one of these teams is not in the competition its National Federation will present their national champion that will be drawn in the last five (5). If the National champion is already included, the number of groups on that draw will not be extended with other groups.

2.9 Skating surface size requirements

The minimum size of the skating surface for a World Skate ATC Competition event is 25 meters by 50 meters. Any deviation from this size, must be approved by the WORLD SKATE Artistic Technical Commission.

3 SPORTS REGULATIONS

3.1 General

The purpose of these regulations is to control any case that may occur during an official Artistic Roller Skating competition conducted by World Skate ATC or any international competition hosted by a Member National Federation.

If any unforeseen event/s should happen during the championships that are not provided for in the written regulations, the matter shall be settled by the referee in the best interests of the sport.

In the best interest of the sport, in real exceptional situations, World Skate ATC can take decisions that are against these rules.

3.2 Anti-Doping

For Anti-Doping World Skate regulations please refer to WADA Anti-Doping specifications published on the World Skate website.

3.3 Contestants

Contestants must be on the skating surface ready to skate when it is their time to perform.

Any contestant reporting after his or her time to compete has passed shall not be allowed to compete in that event, provided that the contest was commenced at the time advertised.

Dividing the contestants into groups shall be done before the event begins and will not be changed should a contestant withdraw or be missing.

3.4 Coaches

Shouting and instructing skaters at the side of the rink during any competition is not allowed. If this happens the coach involved will be removed from the rink and the skater may be penalized.

During competition and official trainings, coaches at the rink side must be in official uniform of the country or casual but elegant attire. Shorts and/or sleeveless shirts are not considered appropriate attire for men.

3.5 Interruption of Skating

The following actions shall be taken into consideration, should a contestant or team encounter an interruption of skating as outlined below.

- Illness or injury: the contestant must be able to skate his or her entire program within a ten (10) minute resting period. Otherwise, a mark of point zero (.0) will be assigned. Judging and technical calling (for Rollart system) shall commence at the point of interruption during the re skate.
- Mechanical failure: if the referee finds that the interruption is justified, he or she shall allow the contestant to make the necessary repairs within an acceptable amount of time. Read the note about restart.
- Costume failure: if a costume failure becomes hazardous, indecent, or embarrassing, the referee should stop the contestant. Read the note about restart.
- Outside interference. Read the note about restart.
- Music failure: in pairs skating, free skating, dance skating, show and precision, music failure shall be considered as outside interference. The referee must stop the contestant or team in any case of music failure.
- Official error: if the referee inadvertently stops the contestant or team before their performance has been completed, it shall be considered as outside interference.
- For all events (dance, solo dance, free skating, inline, precision, show), if the skater(s)/team stops or leaves the floor for unjustified reasons (fault of their own) before they have completed the program, there will be no re skate and the following applies:
 - If the stoppage happens before the middle of the program, the skater(s) will receive a mark of zero (0.0) with no placement in the event.
 - If it happens after the middle of the program, the time violation penalties will be applied, and the components/artistic impression mark must be low.

- \circ In the case of figures, if a competitor stops or falls on a figure through his/her own fault the penalty is 1.0. If they are unable to continue the figure or leave the floor for unjustified reasons, the skater will receive a mark of zero (0.0) with no placement in the event.
- Order of skating: in case of interruption, the order of skating for the event may be adjusted if necessary, under the following rules:
 - In figure skating, the next figure will not be started until the affected contestant has completed the figure during which the interruption occurred.
 - In a free skating/pairs final program, no contestant shall skate in a different group from the one into which he or she was originally assigned.
 - In a solo/couples free dance program, no contestant shall skate in a different group from the one into which he or she was originally assigned.

Note about the restart

In case of objective interruption, the restart is allowed. If the interruption is:

- During the first minute of the program, the skater/s must restart from the beginning of the program with judging/technical calling resuming from the point of interruption.
- After the first minute the skater/s is allowed to restart from the point of the interruption with judging/technical calling resuming from the same point of interruption.

The judges shall not observe the contestant during the re-skate until the point of interruption is reached. The referee shall signal when the contestant has reached this point by sounding a whistle.

The referee and assistant referee (where applicable) shall observe the contestant to ensure that he or she performs the movements of the program. If the referee feels that the contestant is unduly changing the program or skating it to be rested for the remaining portion, a mark of zero (0.0) shall be assigned.

3.6 Fall

For all disciplines, a fall leading to penalty is when more than 50% of the body weight is supported by any part of the body except the skate/s.

3.7 Equipment

In all World Skate ATC Junior and Senior events quad skates are permitted, except for inline competitions.

In all Show and Precision Team events each team member must have the same type of skates. They have the choice of either quad or Inline skates for each member or each team.

There are no restrictions on skate frames, wheels, or boots.

3.8 Music

Each National Federation must send the music at the time of registration on the online World Skate platform and hand the music of each participant in a USB (in mp3, mp4, etc.) as backup at the first Championship meeting. The name of each file should be: Skater's Name_Skater's Last Name - Category (junior/senior) - Modality (free skating, pairs, dance) - short or long program, style dance or free dance. For Show and Precision, the name of the group and the title of the show.

Vocal music is allowed.

For all disciplines the penalty for time violation of the program less than the minimum, will be 0.5 point each 10 secs or part thereof.

For all the disciplines the time from the start of the music and the first movement of the skater, couple or group, cannot be more than 10 seconds. A penalty of 0.5 point will be applied.

Music with inappropriate or expletive lyrics in any language is not allowed. A penalty of 1.0 will be applied.

3.9 Technical Panel and Judges

All judges and Technical Panel must be ready to officiate thirty (30) minutes prior to the start of the event to which they are assigned.

If a judge is missing prior to the start of an event, the referee shall assign a replacement. In case of competitions judged with the White System the assistant can judge the event.

If a judge is missing after the start of an event, the referee shall temporarily replace or substitute him or her with another judge or, if necessary, with the assistant.

For Rollart System, the technical and judges' panel can be different for the two parts of a competition (short/long, style/free).

4 SYSTEMS

4.1 White System

White system will be used for figures and show.

Scoring Procedures and Judges Panels for White System

The value of the scores assigned for artistic roller-skating competitions are assigned as follows:

0.0	Not skated	5.0 - 5.9	Average
0.1 -0.9	Extremely bad	6.0 - 6.9	Fair
1.0- 1.9	Very poor	7.0 - 7.9	Good
2.0- 2.9	Poor	8.0 - 8.9	Very Good
3.0- 3.9	Defective	9.0 - 9.9	Excellent
4.0- 4.9	Below Average	10.0	Perfect

Decimals to one tenth (.1) may be used to indicate a finer degree of comparison. Each judge will be provided a means of displaying the scores that he or she assigns to the contestants.

This system of score display may be either electrical or manual. The judges shall receive instructions regarding the scoring display system prior to the judging of the event.

All judges are to observe competitors during training sessions, but they must not prejudge the event.

Each judge will be issued a master list of competitors, in skating order. This list shall also indicate the warm-up groups and the starting order for each new figure.

The judges shall be given a new list for each figure to be skated in the correct order of skating. This list is handed to the assistant referee after each figure, and a new list given to Judges for the next figure.

After the first contestant has skated, the judge must register the score for that skater immediately.

The Referee will take out the highest and lowest score and will then inform the judges of the average score. The judges must then adjust their scores to within two-tenths (.2) of the average score.

During a competition referees are free, on their own responsibility, to warn the judges for their marks, if they think the marks are not consistent with the content of the program or figure.

Judges are required to follow specific instructions of the referee in scoring an event where specific written rules require, but they are not otherwise obliged to raise or lower their scores.

Judges who consistently assign equal scores to contestants, which affect their grouping or placement, may lose their commission.

Judges are answerable only to the ATC for their conduct as judges and their judging ability. In case of unacceptable judging, the involved judge may lose, (temporarily or permanently) their commission. In the above case, the involved National Federation will not be invited to nominate judges for a minimum period of two (2) years.

Judges must not discuss the performance of a competitor with other judges or any other person until the final results have been released.

Judges are not teachers and therefore must not counsel or assist contestants before, during, or after an event.

Referees

- Referees shall in no way attempt to influence the decision of any judge.
- Their control of the event to which they are assigned must never conflict with written regulations.
- Each referee shall be responsible for the smooth and successful conduct of the event to which they have been assigned.
- The referee may make changes in the program in the interest of the sport, but these changes may not be against any World Skate ATC or World Skate regulations.
- The referee may substitute an official if the scheduled official fails to report for the event, or if an official must leave due to illness, disorderly conduct, or other cause.
- The referee shall see that the rules for each specific event to which they have been assigned are followed.
- The referee must inform the judges of all mandatory penalties.
- The referee may allow a contestant to begin a figure a second time without penalty.
- The decision of such a restart is left to the discretion of the contestant.
- The contestant must indicate his or her desire to restart the figure within the first one-third (1/3) of the initial circle.
- The referee may inform a judge of an unusual variance in his or her scores as compared to the scores of the other judges. The referee may permit the judges to adjust those scores accordingly.

- The referee must give a report to the ATC concerning any unusual performance by a judge as soon as possible after the conclusion of the event in question.
- If any unforeseen event should happen during the championships, which are not provided for in the written regulations, the matter shall be settled by the referee in the best interests of the sport.

Assistant Referees

- The assistant referee has the responsibility to assist the referee in the control of the event.
- Prior to each event, the assistant referee shall distribute to the judges a master list of contestants, listed in the order of skating, indicating the groups for warm-up and the starting order for each new figure.
- Prior to the events, the assistant referee shall distribute a supply of individual scoring sheets to each judge.
- In the figure skating event, the assistant referee must ensure that no more than four (4) contestants are on the warm-up circles at any time. If loops are being contested, no more than five (5) contestants should be on the warm-up circles.

Calculators

- Six (6) months prior to the date of commencement of the World Championships, each National Federation shall inform the World Skate Artistic Technical Commission of their available calculators.
- At least one (1) calculator must be from a country other than that of the organizing National Federation.
- The World Skate ATC reserves the right to question the calculators about their activities at National and International events.
- The names of the contestants, in the order in which they completed the event, shall be listed vertically (top to bottom), with the contestant's country listed across the top of the form.
- The results shall be given to the referee of the event or to ATC.
- Only ATC may release the final results for public display.

4.2 Rollart - The System

Rollart will be used for free skating, inline, dance (solo and couples), pairs and precision.

Six (6) months prior to the date of commencement of the World Championships, each National Federation shall inform the World Skate Artistic Technical Committee of their available data operators and event managers.

At least one (1) data operator and one (1) event manager must be from a country other than that of the organizing National Federation.

The World Skate ATC reserves the right to question the data operators and event managers about their activities at National and International events.

The system will consist of three main parts:

Event manager

There must be a minimum of two (2) event managers for each World Championships event.

The World Skate ATC shall notify the event manager of any withdrawals immediately following the drawing for the starting order of the events.

Functionalities:

- Entering competition information.
- Entering the list of skaters for that competition.
- Entering the number of judges for that competition.
- Managing the order of skating of the skaters in the competition.
- Creating and printing a list of competitions entered.
- Calculating placements.
- Creating and printing the placements for each competition.
- Creating and printing the details for each competition of each skater: competition score, TC, QOE, AI, elements called and levels.
- Managing to send the information to a video system to publish the event information on the screen or a video output: name of the skater/s, ranking, TC AI PE and the Total.
- The names of the contestants, in the order in which they completed the event, shall be listed vertically (top to bottom), with the contestant's country listed across the top of the form.
- The results shall be given to the referee of the event or to ATC. Only ATC may release the final results for public display.

Technical panel

- Each discipline will have its own interface.
- For each discipline the system will show the technical elements and the levels that can be chosen.
- The system will allow selecting the penalizations.
- Each element/level chosen must be shown in the interface.
- After the judges, will send their QOE and artistic impression the total must be shown on the technical panel interface.
- Watch to start the timing of the program.
- Button to send the total scores to the Event Manager for the placement's calculation.

Judges panel

- Show the elements called by the technical panel.
- For each element/level the system will allow to give the QOE: +3 +2 +1 0 -1 -2 -3.
- For each component, the system will allow the judge to define the value with a score that goes from 0.25 to 10 with 0.25 increments (0.25, 0.50, 0.75, 1.00 etc.).
- For the first skater the system will do an average and the judges must then adjust their scores to within 0.50 of the average score.

Referee

- Referees shall in no way attempt to influence the decision of any judge.
- Their control of the event to which they are assigned must never conflict with written regulations.
- If any unforeseen event should happen during the championships, which are not provided for in the written regulations, shall be settled by the referee in the best interests of the sport.

Data operators

There must be a minimum of two (2) data operators for each World Championships event.

Panels

Competitions panels are:

- Event manager.
- Technical panel.
- Judges panel.

Technical Panel

The technical panel will consist of one technical specialist, one specialist assistant, one technical controller and one data operator with the following duties:

Technical specialist:

- Defines and calls the technical elements performed.
- Identifies the levels of the technical elements performed by skaters depending on the features presented.
- Calls the falls.

Specialist assistant:

- Ask for the review if he/she doesn't agree on the call of the specialist.
- Decides if there is a discussion between the technical specialist and the technical controller.
- Pre-call the elements to be performed and record the calls done by the specialist.

Technical controller:

- Verifies the calls and the data entered in the system are correct.
- Ask for the review if he/she doesn't agree on the call of the specialist and assistant.

Data operator:

• Enter the elements called by the technical panel.

Judges Panel

Referee:

- Judge as if he/she was a judge.
- Identifies the penalizations and violation of the elements.
- Manage the whole competition.
- \circ $\,$ Keeps the time of the programs.
- Judges evaluate and give the QOE to every element called by the technical panel.
- Judges evaluate and give the value to each component of the artistic impression.
- It will be allowed, for any reason, to change a judge from short program to long program.

Definitions

QUALITY OF THE ELEMENT - QOE

The value that is assigned by each judge to every single technical element. This value will increase or decrease the technical value of the program.

TECHNICAL VALUE OF THE ELEMENT - TE

The value of the technical element (please refer to Excel sheet).

TECHNICAL CONTENT SCORE - TC

The total technical score that results from the sum of all the values of the technical elements performed by the skater/s.

TECHNICAL VALUE OF THE PROGRAM - TVP

This is the sum of values of the technical elements of the program when correctly executed plus the Components scores.

PENALIZATION - PE

The value of the penalization that will be subtracted from the TVP.

FEATURE

Technical characteristic that, combined with other features, can increase the value / level of the technical element.

QOE and Artistic components

The system can work with N judges. We can set a maximum of 9. It's not important if the number of judges is odd or not.

- For panels with more than three (3) judges the system will eliminate the highest and the lowest QOE and the sum of the QOE will be divided by the number of judges left, the same for each component of the artistic impression.
- For panels with three (3) or less judges the system will divide the sum of QOE by the number of the judges and the same for each component of the artistic impression.

The results will be rounded to two (2) decimals.

Methods to increase the TVP

- To increase the score with the TVE (Technical Value of the Element) of each performed element. The more difficult the elements are, higher the TVP (Total Technical Value) will be.
- To increase the score with the QOE (Quality of the Element) by executing correct and high-quality elements. This value will be added to the TVP.
- To increase the score with the value of each component of the Artistic Impression.

Causes that decrease the TVP

- TVP will decrease with technical elements not performed correctly.
- TVP will decrease with negative QOE given by judges, if the quality of the element is not good (e.g. landing on toe-stop, step out etc.). These will be subtracted from TVP.
- TVP will decrease with penalties like falls, costume violation, timing faults, etc.

Penalizations

Unlike the old system, the philosophy of the new system leads to a reduction of the number of penalties. In fact, the following statements are true:

- If a skater/couple executes more elements than allowed, the excess elements will not be evaluated, and they will not be penalized, except in the case of NOT PERMITTED elements.
- If a skater/couple executes fewer elements, the total will be low, there will be no penalization unless the element not performed is MANDATORY.

Placements

Placements will be decided on the highest total score.

If there are ties: for the short program/style dance/compulsory dance the skater with the highest technical score will win; for the free long /free dance program the skater with artistic impression highest score will win.

For an overall tie: the highest total score in the long/free program will win (if the tie remains after this, the highest total score of the short program/style dance will determine the winner).

Rollart panels for international competitions

There will be the following number of panels:

- One or two panels for free.
- One panel for pairs.
- One or two panels for dance.
- One panel for precision.

The same TS /Controller/Assistant, judges, and data operators can participate in one or two panels.

Technical panel will consist of four (4) people.

Judges panel will consist of a minimum of five (5) people: four (4) judges and one (1) referee.

It will be responsibility of World Skate ATC to create the panels for the competitions.

The Technical Panel and Judges Panel can be different for short/style dance and long/free dance.

5 OFFICIATING REGULATION

5.1 General

Only World Skate ATC has the authority to commission technical officials such as International Judges, Referees, Technical Specialists, Data Operators and Event Managers.

If required, the ATC Chairman can appoint one (1) member of the Commission to be responsible for all matters concerning examinations and commissioning of technical officials.

National Federations must submit annually upon request, the names of their judges to ATC Chairman if they wish these names to be retained on the international list.

Only judges/TS nominated by their National Federation will be considered by the World Skate ATC to judge an international event in the category of World Games, Pan American Games, Asian Games, European Championships, and all International Artistic events, where at least two skaters are entered from different continents.

Only World Skate ATC may invite judges to the events over which they have jurisdiction.

A judge must withdraw from a panel if a conflict of interest should arise.

A conflict of interest occurs when a judge is assigned to an event in which one or more of the competitors are:

- A relative.
- A student of a relative.
- A former student.
- A former competitive partner.

A two-year period must elapse between skating with a partner, or teaching a pupil, who you are likely to judge.

The World Skate ATC Chairman has to approve the official's selection for all International events, whether Competitions or Championships in all continents.

5.2 Commission categories

The commissions for World Skate ATC technical officials are as follows:

- International Technical Specialist/Assistant and Controller for each discipline.
- International Judge for each discipline.

All commissions are appointed for a period of one (1) year or until January 31 of the following year. No commissions shall extend past twelve (12) months without renewal and the payment of the appropriate fees.

All World Skate Artistic judges and officials are responsible to the World Skate ATC.

5.3 World Skate Seminar

Each year before the 31st of January, World Skate will organize a seminar with the following subjects:

- Present new rules for the next sporting season.
- Assess results from the last World Championships and make recommendation for the next season.
- Conduct International Technical Specialists exams.
- Prepare and deliver International judge's exams.
- Promote sessions with specific technical focus in different areas of our sport.

The seminar is open to all: technical specialists, judges, and coaches.

5.4 Officiating examinations

Candidates for judge and technical specialist examinations must be nominated by the National Federation of which he or she is a member. The National Federation must be in good standing with World Skate.

International Technical Specialists and Judges examinations will take place once per year during the World Skate Seminar.

International Judges examinations could take place continentally once per year, but two (2) members of the ATC must be involved in the examination commission.

National TS examinations can take place at different seminars organized by National Federations or Continental Organizations.

National federations will present, 1 month before the commencement of the seminar, the names of the Technical specialist and judges proposed to World Skate ATC.

No more than two Technical Specialists or no more than two judges per discipline and per nation can be nominated.

The proposed Technical Specialist must have already passed the examination as international judge.

The exam will consist of a written and a practical part.

The questions on the written examination are the property of the examiners and must be returned to them at the conclusion of the examination.

The only information to be disclosed after the test papers have been graded is whether the candidate passed or failed.

Candidates for Judge/TS examinations must be a minimum of twenty-five (25) years of age, but not more than fifty-five (55) years of age. After passing the examination the candidate shall not skate in a competition of any kind.

International Judges who reach the age of seventy (70), may be retained on the World Skate Artistic list and may continue to judge all international events, except for the world championships, Pan American Games, Asian, Oceania, European Championships, World Games, or World Roller Games, as long as they remain active in their National Federation.

Commissions will not be issued to anyone who is still actively competing in roller skating competitions or who is teaching roller skating.

Commissions will not be issued to anyone who has not judged at a national level artistic roller skating events in their own nation for at least five (5) years. A Curriculum Vitae should be issued by the National Federation presenting the judge.

Candidates who fail the test may take the test again after a period of one (1) year, during the annual World Skate seminar.

5.5 Commission Fees

The commission fee for a new judge, TS shall be US\$100.00.

The renewal fee is US\$50.00 for judges and 100 US\$ for TS. The fee will be paid into the World Skate account and a copy of the payment will be sent to the World Skate Artistic Chairman by 31 of January and can only be paid through the National Federation.

Judges and TS who have not renewed their credentials for two (2) consecutive years will be required to pass a new test before reinstatement.

In order to retain their commissions, all officials must remain active in the sport of competitive roller skating and:

- TS must participate in the World Skate annual seminar at least once every two years and must have been involved in at least one international competition each year.
- International judges must have judged at least one competition each year.
- The World Skate Artistic Technical Committee may refuse a commission for a cause.

A National Federation must advise World Skate ATC Chairman in writing when they remove one judge of their international officials.

World Skate Head Office must advise the ATC by the end of February of each year, of the complete list of judges each Federation has registered and paid for.

Each year on the first day of April, the World Skate ATC Chairman shall issue a list of all judges and TS who have renewed their commissions and paid their fees. Only those officials will be permitted to officiate at events of an international nature, which require a World Skate Artistic commissioned judge, TS, or data operator.

5.6 Judges for World Championships and International Championships

The World Skate ATC is totally responsible for the selection of all judges/TS for the Junior and Senior World Championships in all disciplines.

All judges will be invited directly by World Skate Artistic Chairman, with a copy sent to the Federation concerned. Judges who are selected and cannot accept their invitation will be replaced by the World Skate Artistic Technical Commission Chairman.

Nominated judges may not have judged at the prior World Championships (i.e. two consecutive world championships).

Judges who officiate at Senior Continental or World Games contests cannot judge the World Championships in the same year.

The World Skate ATC Chairman will select the number of judges required.

Although this is not always possible or feasible, when selecting the judges, the World Skate ATC will give consideration to inviting one judge from each participating National Federation. This is a decision, which will be made by the World Skate ATC, which will be guided by funds available for the judges.

In selecting judges for a World Championship panel, there will never be a majority from any one continent or geographical area, with the exception that is when the World Skate ATC is aware that a geographical area does not have experience and knowledge in a particular discipline.

The World Skate ATC reserves the right to question judges about activities at National and International events.

A country's participation at international seminars is a mandatory requirement to have an international Judge/TS invited.

If a National Federation is organizing an event (competition, seminar or promotional) and requires an official from another country, they must ask permission in writing from World Skate, copying in the World Skate Continental Chairman. World Skate will then (after talking to the federation of the official requested) arrange an official for the organizing Federation.

5.7 Uniform

Female Judges shall wear a navy-blue jacket with navy-blue skirt or trousers, with a white blouse or t-shirt. If a Judge decides to wear trousers, they must be part of a tailored suit, which must be elegant. Black or blue shoes.

Male judges shall wear navy-blue blazer and dark navy-blue trousers with a white shirt or t-shirt. Black shoes.

In general, jeans, casual trousers, cotton trousers, bootleg trousers, half-cut trousers, shorts, etc. WILL NOT be accepted, they must be part of a suit (matching navy jacket).

Under exceptional climatic conditions, the referee shall have the right to modify the dress code for the judges.

6 CODE OF ETHICS

Possible corrections to Artistic Skating competition scores and results and the time frame allowed to apply such corrections.

- No protests against evaluations by Referees, Judges and the Technical Panel (Technical Controller, Technical Specialist, Assistant Specialist, Data Operator) of skaters' performances are allowed.
- Protests against results are permitted only in the case of incorrect mathematical calculation. A wrong identification of an element or of a level of difficulty, although it results in a lower or higher score, is a human error and not an incorrect mathematical calculation.
- However, if the Referee learns
 - a. Prior to the beginning of the award ceremony or prior to the official announcement of results (if there is no award ceremony) that a human error relating to a wrong data input by the Data Operator occurred, the Referee may correct the error provided that the Technical Controller, Technical Specialist, Assistant Specialist and the Data Operator all agree that there was an error.
 - b. That an incorrect mathematical calculation occurred, the Referee may correct the calculation (even without a protest) provided that the Technical Controller, Technical Specialist, Assistant Specialist and the Data Operator all agree that there was such an incorrect calculation. If such correction results in a change of the final placements of the skaters, the corresponding results shall be changed accordingly.
 - c. If the situation under paragraph a) and b) arises the Referee shall make a short record in writing which must be signed by all the Officials concerned.

Only corrections as outlined above (wrong data input by Data Operator and/or incorrect mathematical calculation) can be accepted within the said timelines.

If by correcting these errors, the result of the short program changes but the draw for order of skating for long program has been done, the draw must be redone.

Consequently, corrections of Technical Panel calls and/or Judges scores which are not in line with the above-mentioned Rule cannot be made once the score of a Competitor has been announced by the official speaker and/or displayed on the score board or video screen of the competition.

The above-mentioned clarification is in line with the generally accepted principles of applying "Field of Play" decisions.

Time limits for filing a protest

• Protests against incorrect mathematical calculation may be filed until 24 hours after the completion of the competition concerned.

6.1 Improper public comments or behavior

• Competitors and team officials who, either directly or through a third party, openly express themselves in an improper manner regarding the Officials or their decisions, namely for Artistic Skating competitions in particular but not limited to the calling of elements and/or levels of difficulty by the Technical Specialist, Assistant Specialist and the Technical Controller or regarding the markings of the Judges may be sanctioned.

- Judges cannot discuss a competition with any member of any delegation during the event, if this happens, the Artistic Technical Commission is allowed to take that judge out of the panel.
- The use of mobile phones on the technical or judges panel for personal purposes is prohibited whilst an event is in progress.
- World Skate would like to remind all officials their responsibility when invited to judge at any International competition:
 - Judges are refrained to take photos with skaters of any Nationality, upload and post on any social media.
 - A suspension of one (1) year will follow if any official is found in breach of their responsibility.
- Encouragement or advice of any kind, especially prompting during skating, by officials, is not permitted.
 - A suspension of one (1) year will follow if any official is found in breach of their responsibility.

6.2 Technical Panel Code of Ethics

The Technical Panel Code of Ethics and Conflict of Interest Policy applies to all individuals appointed by World Skate to serve as officials on a Technical Panel. Officials subject to this policy include: Technical Controller, Technical Specialist, Assistant Specialist, Data Operator and Video Replay Operator.

The purpose of this Policy is to:

- Reinforce that the highest standards of ethics, fairness, honesty and integrity must govern all officials eligible to serve on technical panels at World Skate sanctioned events.
- Ensure that all such officials comply with the fundamental policies and values of World Skate.

Technical Panel officials agree on the following:

- To conduct with independence and neutrality at all times, giving example of high standards of ethical behavior.
- To display no favoritism for, or prejudice against, any skater, coach, judge, official, volunteer or other individuals involved in a World Skate event.
- Conduct and comments should stimulate trust and confidence among all skaters and coaches. Appearance of misconduct or impropriety can be damaging.
- Not to accept cash or other benefits and favors for the participation in any World Skate competition.
- The failure to abide by the Code of Ethics and Conflict of Interest Policy for Technical Panel officials will result in the suspension for a definite period of time, or may forever exclude the official, from all World Skate events and activities under the applicable eligibility rules.

6.3 Technical & Judges Panel Code of Ethics

The Technical & Judges Panel Code of Ethics and Conflict of Interest Policy applies to all individuals appointed by World Skate to serve as officials on a Technical or Judges Panel. Officials subject to this policy include: Technical Controller, Technical Specialist, Assistant Specialist, Data Operator, Video Replay Operator, Referee, Judges.

The purpose of this Policy is to:

- Reinforce that the highest standards of ethics, fairness, honesty and integrity must govern all officials eligible to serve on technical panels at World Skate sanctioned events.
- Ensure that all such officials comply with the fundamental policies and values of World Skate.

Technical & Judges Panel officials agree on the following:

- To conduct with independence and neutrality at all times, giving example of high standards of ethical behavior.
- To display no favoritism for, or prejudice against, any skater, coach, judge, official, volunteer or other individuals involved in a World Skate event.
- Conduct and comments should stimulate trust and confidence among all skaters and coaches. Appearance of misconduct or impropriety can be damaging.
- Not to accept cash or other benefits and favors for the participation in any World Skate competition.
- The failure to abide by the Code of Ethics and Conflict of Interest Policy for Technical & Judges Panel officials will result in the suspension for a definite period of time, or may forever exclude the official, from all World Skate events and activities under the applicable eligibility rules.

Judges Scores:

- Each judge's component score should not differ from the average score for that component by 1.5 marks or more.
- Each judge's QOE should not differ from the average QOE for that element by two (2) or more integers.
- ATC will analyze the results to monitor judge's performance and could decide to send a letter of admonition to the federation of the judge in question. A second admonition letter would result in the judge losing their international accreditation. To reinstate the title of International judge the judge would then need to take the exam again if the requirements allow (i.e. age, etc.)
- If a judge is observed to be consistently awarding higher than the allowed difference from the average to skaters of their own national federation it will be considered failure to abide by the Code of Ethics for Technical & Judges Panel officials and will result in the suspension for a definite period of time, or may forever exclude the official, from all World Skate Events and activities under the applicable eligibility rules.
- If a judge or technical specialist is seen to be unfair to skaters in any way, the official in question will be removed from the panel, and the Federation involved will not have any official invited by World Skate Artistic for the next year.
- Any Federation, which tries to influence judges from its own, or any other Federation, to judge in favor of any particular skater/s either before or during a competition, will be suspended.
- This influence must not be either to Federation Delegates or directly to judges themselves.
- If this happens, the judges of the Federation attempting to do this will be removed from the competition. The offending Federation will not have judges at the next World Championships.
- Such action by any Federation is an embarrassment to World Skate, to ATC, and to the sport of roller skating as whole. Politics cannot and must not be part of this sport.

6.4 Conflict of interest

- A direct conflict of interest exists when the official (or a parent, sibling, child, spouse, skating or life partner) have been teaching, choreographing or consulting any competitor in an event, in the previous one year.
 - An indirect conflict of interest could arise through any personal, family or financial relationship that could be perceived as a conflict of interest. This includes any situation that has the potential to undermine the impartiality of a person.
- Officials must agree on the following:
 - Not to participate in any event (i.e. senior ladies free skating) in which there is a direct conflict of interest.
 - $\circ~$ If a conflict is discovered after the invitation has been accepted, the Referee should be immediately notified.
 - To disclose all direct and possible indirect conflicts when submitting the availability of the official to serve at qualifying competitions. If a conflict is discovered after the assignment to a qualifying competition, it is necessary to notify the Referee immediately.
 - If those officials agree that a conflict exists, the official will be removed from the panel. If those officials do not agree, the referee will make the final decision.

6.5 Critiques, feedback and monitoring

Technical Controllers, Technical Specialists and Assistant Specialists can critique and provide feedback to skaters throughout the year with the following stipulations:

Officials may not critique skaters who will be competing in a World Skate event to which the official is assigned for a period of 2 months prior.

Technical Panel officials found in breach of this rule will be banned from being involved in any World Skate competition for 1 year.

6.6 Conducting club and rink seminars

Technical Controllers, Technical Specialists and Assistant Specialists who are asked by rinks or clubs to conduct a seminar for skaters may do so as long as it is announced and is available to all skaters who wish to participate.

7 DRAW JUDGES - WHITE SYSTEM COMPETITIONS

8 GLOSSARY OF SKATING TERMS

A	In figure skating, alpha character is used to denote a right foot start.
ACCENT	A musical term, the emphasized beats of a musical rendition.
ADAGIO	A form of team skating incorporating acrobatics, carries, pivots, and other specialized
	movements not acceptable in competitive pairs skating.
	Note: Adagio type movements at the end of a lift are not allowed. This means that the
	man's shoulders or any other part of his body (with the exception of the arms) cannot
	be used to assist the lady in her landing. The lady's descent cannot be interrupted
	from the highest point of the lift to the final landing position.
ADVANCED MOVEMENT	An edge involving a one-foot turn.
AIM	The starting direction of a step or sequence of steps on the same lobe.
AND POSITION	A parallel relation of the free foot to the tracing foot through which or from which the
	free foot passes while stroking.
ANGULAR	When the employed skate takes the floor on an arc or flat divergent to the arc or flat
	being skated.
ARABESQUE	A movement in which the body is arched strongly in a continuous line from the head
-	through free foot, while gliding on any edge or flat.
ARC	The circumference or portion of the circumference of a circle.
ARCH	A position of the body in which the spine is tensed backwards.
ARTISTIC IMPRESSION	The way or style in which a skater executes any movements in a free skating, pairs,
	solo dance, couple dance and precision.
ASSISTED JUMP	In dance skating, a jump in which the partner gives passive assistance in a non-
	supportive role. In this action, there is one continuous ascending and descending
	movement.
AXEL	The only jump with a forward take off. Take off from LOF landing on ROB. Clockwise
	take off is on ROF landing on LOB.
AXIS	In dance skating, the angle at which steps crosses the baseline; also the baseline of
	rotation for turns. See also: Continuous axis. In figure skating, imaginary lines of
	symmetry. See also: Long axis, Transverse axis. In free skating, the baseline of
	rotation for a spin or jump.
В	In figure skating, a beta character denoting a left foot start.
BACKWARD	A direction of travel in which the tracing of the employed skate is led by the heel.
BALLROOM STEPS	Steps executed in Closed position (Tango Delanco) where partners rotate going from
	backward to forward and vice versa directly on the outside edge.
BAR	The apparent count of a single musical unit as employed by the skater in timing a
	dance. The bar is usually commenced with an accented beat.
BARRIER	The perimeter of the skating surface.
BARRIER LOBE	Any lobe belonging on the barrier side of a dance baseline.
BASELINE	A real or imaginary line of reference. A POSTURE baseline refers to the imaginary line
	from the center of the skating foot through the hip and shoulder line. A TEAM baseline
	is an imaginary line forming the axis around which the members of a team skate. A
	DANCE baseline is an imaginary line on the skating surface, around which the steps of
	a dance are patterned, and which separates the center and barrier lobes.
BEAT	A regular throb or pulse of the music.
BODY MOVEMENTS	The choreographic movements of the arms, bust, head, free leg, must clearly affect
	the balance of the skater/s.
BORDER DANCE	A dance whose steps have no required location on the skating surface, skated so that
	the movement of the team changes the location of the steps on the skating surface.
BRACKET	A one foot turn from a forward edge to an opposite backward edge (or vice versa) with
	rotation in a direction contrary to the initial edge.
CARRIAGE	The manner in which the body is held while skating.
CARRIED LIFT	In dance skating, a lift which exceeds the permitted number of measures of music (4
	measures of Waltz music - 3/4; or two (2) measures of other music - 4/4, 6/8, etc.).
CENTER	The centerline of the rink, the center of the circle, which the tracing curve, is an arc.
CENTER LOBE	In dance, any lobe belonging on the center side of a dance baseline.

CHANGE OF EDGE	A change of curve from outside to inside (or vice versa) on the employed skate, done without a change of direction.
CHASSE	A step that does not pass the old tracing foot. Completed chasse does not involve or
	permit a trailing position of the unemployed foot. The Chasse is to correspond to the
	close or paused steps of ballroom dancing. The five type of Chasse are:
	a) CROSSED a Chasse for the execution of which the new tracing foot crosses the old;
	b) DROPPED a Chasse during the execution of which the new free foot is moved against
	or into the line of travel;
	c) SWING DROPPED a dropped Chasse where the free foot moves past the employed
	foot to the leading position before becoming the employed foot at the AND position;
	d) INLINE a Chasse for the execution of which the new tracing foots takes the surface
	in line with the old;
	e) RAISED a chasse during the execution of which the new free foot is raised vertically
	from the skating surface.
CHOCTAW	A two-foot turn from a forward edge to the opposite backward edge (or vice versa).
	The four types of Choctaw are:
	a) CLOSED, executed with the free leg in front of the body after the turn. In this type
	of turn the free foot, upon becoming employed, strokes past the other foot, which
	moves the leg into a closed position.
	b) OPEN, a Choctaw with the free leg in front of the body turn. Both back to forward
	and forward to back turns of this type are in use. In the forward to back variety, the
	turn is executed heel to heel, with the new free foot moving into the line of travel as
	the old free foot takes the floor. In the back to forward variety, the turn is executed
	from behind the heel, with the free leg trailing after the turn. In either variety, the
	new free foot, knee, and leg are rotated outward as the turn is made, with the leg
	moving into the open position;
	c) DROPPED, executed either open or closed, where the second, or turn edge, is not
	held longer than one beat;
	d)HELD, executed either open or closed, where the second, or turn stroke, is held
	longer than one beat of music: (i.e. A turn where the feet are crossed in front or
	behind and the tracings do not cross each other.)
CHOREOGRAPHIC	The sequence is free. The skaters must demonstrate the ability to skate on the music
FOOTWORK SEQUENCE	and to interpret the music using technical elements such as: steps, turns, arabesque,
	pivot, Ina Bauer, spread eagles, (not declared) one rotation jumps, quick spins. It will
	have a set value of 2.0 (in free skating) or 3.0 (in solo dance). The technical panel will
	call the element and judges will give their QOE. The sequence must start from a
	standing position and must take the whole rink (depending on the rules set).
CLOSED	A position of the free leg in front of the body after a turn; hip rotation of the free leg
	inward; a face-to-face positioning of partners; a method of scoring in which the
	judges' grades are tabulated by the scoring officials without prior public display or
	announcement of grades or placement ordinals; a competition requiring prior
	qualification.
CLUSTER	Sequence of at least three (3) different turns executed on one foot. Change of edge is
	allowed after the 3rd turn if a skater chooses to perform a cluster with more than
	three (3) turns.
COMBINATION JUMP	In free skating, a series of two or more jumps where the landing edge of the first jump
	is the take-off edge for the second jump, etc.
COMPONENTS	Skating Skills, Transitions, Performance, Choreography
CONTACT SKATING	In pairs, movements executed while partners remain in contact with each other.
CONTENTS LIST	The list of items in a program, prepared in advance and provided by the skater.
CONTENTS OF	See Technical Merit.
PROGRAM	
CONTINUOUS AXIS	In dance skating, an imaginary continuous line running around the skating surface, in
	relation to which the correct lobes (or flats) of a border dance or international dance
	are placed. In patterns with straightaways, this portion of the continuous axis would
	have two straight longitudinal references parallel to each other, which are connected
	at the ends with a semi-circular type reference.

CORNER STEPS	The steps of a dance, which are to be skated only on the corners of the skating surface.
COUNT	In music, the numerical reference to the beats of each measure of music. In skating, the numerical reference to the employed beats as applied to a type of music, which may involve one or more musical measures to provide a skating measure, and which may or may not agree with the musician's count.
COUNTER	A one-foot turn without a change of edge, with the rotation counter to the direction of the initial edge.
CROSSED FOOT	The foot to be employed moved across the old in such a manner that the next step will be made past the in-line position.
CROSS PULL	A primary source of momentum in which the free foot is pulled or forced across the tracing foot.
CUSP	The two small curves comprising the deviation from the arc and the point of intersection of any one-foot turn. The point of any one-foot turn.
DANCE HOLDS	 Method of body contact between man and woman partners of a dance team. Basic holds as listed for each dance must be adhered to, with changes made on the required step. The method of change will be left to the discretion of the skaters, provided one-hand remains in contact throughout. Holds are firm but not stiff, and the man should have close hold and have control over his partner at all times (See Leading Partner). The hold is defined by the placement of the man's right arm/hand with respect to the woman (or by the man's left arm/hand for Reverse Kilian position). a) CLOSED or WALTZ (A) - Partners face each other directly, one skating forward while the other skates backwards. The man's right hand is placed firmly against his partner's back at her shoulder blade with elbow raised and bent sufficiently to hold her close. The woman's left hand is placed against the man's right shoulder with her arm resting comfortably on his, elbow on elbow. The man's left arm and woman's right arm are extended at average shoulder height, with the shoulders parallel. b) KILIAN or SIDE (B) - Partners face in the same direction, woman at the right of the man, man's right shoulder behind the woman's left. Woman's left arm is extended in front across the man's body to his left hand, while his right arm is behind her back. Both right hands are clasped and resting at her waist over the hipbone. This position may also be reversed, with the man at the right of the woman, both left hands clasped and resting at her waist, or one hand on woman's waist (both skaters) with the other one outstretched. d) FOXTROT or OPEN (D) - Hand and arm positions are similar to those of the Closed position, but the partner sturn slightly so that both may skate in the same direction. The man's left hand and woman's right hand lead. This position may also be reversed, with the other one outstretched. e) REVERSE FOXTROT (E) - Same as the Foxtrot or Open (D), except that the clasped leading hands are reversed, followi
DIAGRAM	a) a drawn or printed pattern. b) the official print of a dance or figure.

DIDECTION	
DIRECTION	a) OF EDGE - clockwise or counterclockwise progression of a curve.
	b) OF ROTATION - turning of the body in a clockwise/counter clockwise direction.
	c) OF SKATE - forward or backward progression of the skate.d) OF TRAVEL - the general direction of a skater or team, either clockwise or
	counterclockwise around the skating surface.
	e) OF TURN - clockwise or counterclockwise rotation during a turn.
	f) FORWARD - attitude of the body facing toward the direction of travel.
	g) BACKWARD - attitude of the body facing away from the direction of travel.
DOUBLE THREE	In figures, two three turns on the same circle on one foot, with the placement of the
	turns dividing the circles into thirds. Also, two consecutive three turns on the same
	foot and the same arc.
DOUBLE TRACING	The skating of a figure two consecutive times without pause, completed by a stroke
	into the third repetition or by rolling off the circle at the short axis after completing
	two tracings.
DRAW	In dance skating, movement of the free leg in preparation for a turn or steps. Applies
	and is used only on steps or four beats or longer during which a rotation or preparation
	for a turn must be made.
DRAWING PROCEDURE	The method by which the skating order of the contestants is to be determined, as
	prescribed by rule.
DROPPED	a) Not held longer than one beat of music. (see Choctaw, Mohawk, Three and Three
	Turn for specific classifications).
	b) Free leg moved against the line of travel into a leading position (see chasse).
EDGE	A curve traced by the employed skate. A hooked edge is an abruptly deepened curve.
	Change of edge is a change of curve from outside to inside or vice-versa on one foot
	without a change of direction of the skate.
EMPLOYED	In use, the tracing skate.
	a) EMPLOYED FOOT - the foot over the employed skate, or to which the employed
	skate is attached.
	b) EMPLOYED LEG - the leg of the employed foot.c) EMPLOYED SKATE - the skate in contact with the skating surface, or, if both feet are
	on the surface, the skate which carries the weight of the body.
EVENT	Any part of a contest; that is, elimination, semi-final, final, or any subdivision in the
LVENT	skating of a contest, but not the performance of each individual entry.
FALL	The lowering of the body by tracing knee and ankle action as applied in rise and fall.
	The complete loss of balance involving body contact with the skating surface or any
	part of the body touching the skating surface in order to prevent a complete loss of
	balance.
FALSE LEAN	A lean without a posture baseline (see Lean).
FLAT	A straight tracing, not on an edge or curve.
FLIGHT	In dance skating, the skating of two, three, or four teams at the same time in an
	event. Groupings of contestant teams in a dance contest.
FLIP	Jump that takes off always from a backward inside edge. Skating counterclockwise
	take off is from the LIB and lands on the ROB. If skater jumps in the opposite direction
	(clockwise) the take-off will be on the RIB and landing on the LOB.
FOOTWORK	Specialized intricate steps and turns used as interpretive ingredients in a program.
FOOTWORK TYPES	Straight line - skated the full length of the floor surface on the long axis
SEQUENCES	 Diagonal - skated as fully coroner to corner as possible
	• Circular - may be skated anticlockwise or clockwise utilizing the full width of the floor surface on the short axis
	• Serpentine = commences in either direction (clockwise or anticlockwise at the long
	axis at one end of the floor and progress in three bold curves or in two bold curves S-shaped and ends at the long axis of the opposite end of the rink, the pattern
	axis at one end of the floor and progress in three bold curves or in two bold curves
FORCED EDGE	axis at one end of the floor and progress in three bold curves or in two bold curves S-shaped and ends at the long axis of the opposite end of the rink, the pattern
FORCED EDGE FORM	axis at one end of the floor and progress in three bold curves or in two bold curves S-shaped and ends at the long axis of the opposite end of the rink, the pattern should utilize the full length of the floor.

FORWARD	The tracing foot moving in the direction of the toe.
FREE	Not in use. Not in contact with the skating surface, unemployed. The foot not
	employed or tracing on the skating surface. Term is also used to refer to parts of the
	body on the same side as the free foot.
FREE SKATING	Individual and original composition of movement and pattern without prescribed
	routine.
GLIDE	An uninterrupted flowing motion.
GRADE	The numerical value assigned to an individual competition requirement by an
	individual judge.
GRIP	The method of hand contact in the various dance hold positions.
HELD	A step held for longer than one beat of music.
HITCHING	An incorrect movement of the employed skate that involves skidding the leading
	wheels in order to assist a take-off, execute a turn, or conform to a designated
	pattern.
HOLD	The relationship of man and woman to each other in partnership without regard to
	method of hand contact.
INCOMPLETE	A dance or figure in which the skater or team does not complete all the prescribed
	elements.
INDIVIDUAL SCORE	The grade assigned by a judge to an individual requirement of a competition, i.e. to
	each dance, each figure, Technical Merit or Manner of Performance.
INSIDE EDGE	A curve wherein the inside of the employed foot is toward the center of the arc being
	skated.
INTERNATIONAL STYLE	
INTERPRETATION OF	A display of understanding of the music used by the skater. The personal and creative
THE MUSIC / TIMING:	translation of the music to movement. Criteria: effortless movement in time with
	music, expression of the music's style and character, feeling and rhythm, use of
	finesse to reflect the nuances of the music, relationship between the partners
	reflecting the character of the music (pairs, dance).
ITEM	A single movement of a program.
JUDGE	An official commissioned to determine the value of a skater's performance, or to
	assign an order of placement to contestants in a contest.
JUMP	A movement involving a turn or turns that carries the entire body and skates off of the
	skating surface. Criteria: Momentum (the speed of the skater immediately before the
	jump), height (the elevation at the peak of the jump and travel (the distance between take-off and landing).
	a) HALF - a jump employing 180 degrees of rotation (one half turn in the air).
	b) SINGLE - a standard or named jump, a jump employing 360 degrees of rotation (a
	full turn in the air), except in the case of a single axel which rotates 420 degrees in
	the air
	c) ONE AND ONE HALF - A jump during which the skater executes one and one half
	turns in the air.
	d) DOUBLE - Any single jump with a full turn added.
	e) TWO AND ONE HALF - Any full jump with one and one a half turns added.
	f) TRIPLE - any single jump with two rotations added.
	g) STANDARD - any jump with a generally accepted name.
	h) SPLIT - any jump during the elevated part of which the legs are extended in a split
	position.
	i) STAG - Any jump during the elevated part of which the legs are extended in a split
	position, with the knee of one leg bent so as to tuck the foot under the body.
LANDING	The concluding and final segment of any jump, leap, or spin.
	a) EDGE - the edge traced by the landing foot.
	b) FOOT - the foot of the landing skate.
	c) POSITION - the form of the body during a landing.
	d) OUTSIDE - landing skate tracing an outside edge.
	e) INSIDE - landing skate tracing an inside edge.

LEADING	a) In the direction to be traced.
LEADING	b) In position to control or having control of the movement being executed. Applies
	only to team skating.
	c) The act of controlling the movement being executed.
LEADING PARTNER	The member of a team in position to control the movement skated.
LEAN	The inclination of the body to either side of the vertical.
LLAN	a) False - a lean without a proper baseline.
	b) True - a lean with a posture baseline.
LEAP	A free skating movement not involving a turn that carries the entire body and skate off
LLAI	the skating surface.
LIFT	In pair skating, a movement in which a partner is assisted aloft. In dance skating, an
	action whereby one partner is elevated to a higher level (the lifted partner's waist not
	higher than the lifting partner's shoulder), sustained, and set down, with the impetus
	of the lift provided mainly by the partner remaining on the skating surface.
LINK STEPS	Steps used to connect the items of a program (see also Footwork).
LOBE	In dance skating, any step or sequences of steps on one side of the continuous axis,
	approximating a semi-circle in shape. A curved portion of a dance pattern beginning
	and ending at the baseline.
	a) BARRIER - any lobe belonging to the barrier side of the baseline.
	b) CENTER - any lobe belonging to the center side of the baseline.
LONG AXIS	In figure skating, an imaginary straight line which passes through the centers of the
	figure circles. In dance skating, an imaginary line which bisects the length of the
	skating surface.
LOOP	An edge, which spirals in, half circles around, and spirals out across itself. In figure
	skating, a consecutive pair of matched spirals centered on the long axis of a circle. In
	free skating, a jump starting and landing on the same edge, without toe assist on take-
	off, with rotation in the direction of the edge.
LUNGING	An incorrect movement wherein the upper part of the body is thrown forward in an
	effort to increase momentum.
LUTZ	A toe-assisted jump with an entrance on a back outside edge (that rocks over to the
	inner edge on take-off) and lands on the back outside edge of the other foot. LOB(LIB)-
	ROB anticlockwise or ROB(RIB)-LOB clockwise.
MANNER	a) The way or style in which a skater executes the movement of a dance or free
OF PERFORMANCE	skating program.
	b) The grade given for the execution of a dance or free skating program. (See Artistic
	Impression)
MARK	The total of grades given by a judge to a skater or team in an event.
MAXIMUM	a) GRADE - the highest grade or mark a skater may receive from any one judge.
	b) TIME - the greatest amount of elapsed time that may be utilized by a skater in a
	performance of a program. The longest time a judge is allowed to observe a skater in
	the performance of a program.
METRONOME	A mechanical device employed by a musician which produces a regular pulse or beats
	to assist him in maintaining a constant rhythm. In skating, the setting of such a device
	indicating the number of beats per minute.
МІЛІМИМ	a) GRADE - The lowest grade or mark a skater may receive from any one judge and still
	pass a test.
	b) TIME - the least amount of elapsed time that may be utilized by a skater or team to
	receive any credit for a program.

 a) CLOSED - a mohawk with the free leg in front of the body after the turn completion. In this type of turn the free foot upon becoming employed strokes past the other foot, which moves with the leg into a closed position. Turns of this type are sometimes referred to as progressive mohawks. b) OPEN - an open mohawk is one in which the free foot is aimed approximately heel to instep (along the inner edge side of the skating foot). Following the weight transference, the position of the new free foot is trailing the heel of the new skating foot. The open free hip after the turn gives this mohawk its name. c) DROPPED - a mohawk, either open or closed, after which the second or turn edge is not to be held longer than one beat. d) HELD - a mohawk, either open or closed, the second turn or stroke of which is held longer than one beat of music. 		
completion. In this type of turn the free foot upon becoming employed strokes past the other foot, which moves with the leg into a closed position. Turns of this type are sometimes referred to as progressive mohawks. b) OPEN - an open mohawk is one in which the free foot is aimed approximately heel to instep (along the inner edge side of the skating foot). Following the weight transference, the position of the new free foot is trailing the heel of the new skating foot. The open free hip after the turn gives this mohawk its name. c) DROPED - a mohawk, either open or closed, after which the second or turn edge is not to be held longer than one beat. d) HELD - a mohawk, either open or closed, the second turn or stroke of which is held longer than one beat of music. OPFICIAL Bearing approval or authority. Any person commissioned to administer, execute, or apply rules and regulations. OPEN The carriage of the free leg behind the body with the knee and leg rotated outward. OPFIONAL Permitted but not required. Subject to choose. ODENING STEPS In dance skating, the preliminary edges or flats used to gain or build momentum for the execution of the required dages or flats of a dance. ODISIDE EDGE A curve wherein the outside of the employed foot is towards the center of the curve being skated. OVERHEAD LIFT A lift where the woman is held aloft (above the man's head) by using one or both arm extended above his head in a locked position. PARAGRAPH FIGURE A course of travel. In dance skating, the prescribed relationship of bus stare	MOHAWK	
the other foot, which moves with the leg into a closed position. Turns of this type are sometimes referred to as progressive mohawks. b) OPEN - an open mohawk, is one in which the free foot is aimed approximately heel to instep (along the inner edge side of the skating foot). Following the weight transference, the position of the new free foot is trailing the heel of the new skating foot. The open free hip after the turn gives this mohawk. Its name. c) DROPPED - an onbawk, either open or closed, after which the second or turn edge is not to be held longer than one beat. d) HED - a mohawk, either open or closed, the second turn or stroke of which is held longer than one beat of music. DPFICIAL Bearing approval or authority. Any person commissioned to administer, execute, or apply rules and regulations. DPEN The carriage of the free leg behind the body with the knee and leg rotated outward. DPENING STEPS In dance skating, the preliminary edges or flats used to gain or build momentum for the execution of the required deges or flats used to gain or build momentum for the execution of the required deges or flats used to gain or build momentum for the execution of the required deges or flats used to accent ant. OUTSIDE EDGE A curve wherein the outside of the employed foot is towards the center of the curve being skated. OVERHEAD LIFT A lift where the woman is held aloft (above the man's head) by using one or both arm extended above his head in a locked position. PARAGRAPH FIGURE A shool figure using two circles, which requires		
sometimes referred to as progressive mohawks. b) OPEN - an open mohawk is one in which the free foot is aimed approximately heel to instep (along the inner edge side of the skating foot). The open free hip after the turn gives this mohawk its name. c) DROPED - a mohawk, either open or closed, after which the second or turn edge is not to be held longer than one beat. d) HELD - a mohawk, either open or closed, after which the second or turn edge is not to be held longer than one beat. d) HELD - a mohawk, either open or closed, after which the second or turn edge is not to be held longer than one beat. d) HELD - a mohawk, either open or closed, the second turn or stroke of which is held longer than one beat of music. OPFICIAL Bearing approval or authority. Any person commissioned to administer, execute, or apply rules and regulations. OPENING STEPS In dance skating, the preliminary edges or flats used to gain or build momentum for the execution of the required deges or flats used to gain or build momentum for the execution of the required deges or flats of a dance. ORDINAL A curve wherein the outside of the employed foot is towards the center of the curve being skated. OVERHEAD LIFT A lift where the woman is held aloft (above the man's head) by using one or both arm: extended above his head in a locked position. PARRS SKATING A free skating event in which a team of a man and a woman perform a series of spins, lifts, jumps, and connecting footwork in unison wit		completion. In this type of turn the free foot upon becoming employed strokes past
b) OPEN - an open mohawk is one in which the free foot is aimed approximately heal to instep (along the inner edge side of the skating foot. Following the weight transference, the position of the new free foot is trailing the heal of the new skating foot. The open free hip after the turn gives this mohawk its name. c) DROPPED - a mohawk, either open or closed, after which the second or turn edge is not to be held longer than one beat. d) HELD - a mohawk, either open or closed, the second turn or stroke of which is held longer than one beat of music. OPFICIAL Bearing approval or authority. Any person commissioned to administer, execute, or apply rules and regulations. OPEN The carriage of the free leg behind the body with the knee and leg rotated outward. OPTIONAL Permitted but not required. Subject to choose. OPEN In dance skating, the preliminary edges or flats used to gain or build momentum for the execution of the required degs or flats of a dance. ONTSIDE EDGE A curve wherein the outside of the employed foot is towards the center of the curve being skated. OVERHEAD LIFT A lift where the woman is held aloft (above the man's head) by using one or both arm extended above his head in a locked position. PARS SKATING A free skating event in which a team of a man and a woman perform a series of spins, lifts, jumps, and connecting fordwork in unism with a musical selection. PARAGRAPH FIGURE A School figure using two circles, which requires the completion of both circles on each take-off. M		the other foot, which moves with the leg into a closed position. Turns of this type are
to instep (along the inner edge side of the skating foot). Following the weight transference, the position of the new free foot is trailing the heel of the new skating foot. The open free hip after the turn gives this mohawk its name. c) DROPPED - a mohawk, either open or closed, after which the second or turn edge is not to be held longer than one beat. d) HELD - a mohawk, either open or closed, the second turn or stroke of which is held longer than one beat of music. OPFICIAL Bearing approval or authority. Any person commissioned to administer, execute, or apply rules and regulations. OPEN The carriage of the free leg behind the body with the knee and leg rotated outward. OPTIONAL Permitted but not required. Subject to choose. OPENING STEPS In dance skating, the preliminary edges or flats used to gain or build momentum for the execution of the required edges or flats of a dance. ODINAL A number indicating an individual judge's placement of a contestant. OUERHEAD LIFT A lift where the woman is held aloft (above the man's head) by using one or both arm extended above his head in a locked position. PARAGRAPH FIGURE A school figure using two circles, which requires the completion of both circles on each take-off. May or may not involve one-foot turns. A OTFON. A lift where the directly alongside each other and on the same arc at the same instant of weight transfer. PARAGRAPH FIGURE A scourse of tavet. In dance skating, the prescribed relationship as abov		sometimes referred to as progressive mohawks.
Itransference, the position of the new free foot is trailing the heal of the new skating foot. The open free hip after the turn gives this mohawik its name. c) DROPPED - a mohawik, either open or closed, after which the second or turn edge is not to be held longer than one beat. d) HELD - a mohawik, either open or closed, the second turn or stroke of which is held longer than one beat of music. OFFICIAL Bearing approval or authority. Any person commissioned to administer, execute, or apply rules and regulations. PAIRS SKATING A free skating event in which a team of a man and a woman perform a series of spins, lifts, jumps, and connecting footwork in unison with a musical selection. PARAGRAPH FIGURE A school figure using two circles, which requires the completion of both circles on each take-off. May or may not involve one-foot turns. PARALLEL a) POSITION - relationship of partners wherein hips and shoulders are parallel to each other. b) TAKE OFF - both feet directly alongside each other and on the same arc at the same instant of weight transfer. PATTERN A course of travel. In dance skating, the prescribed relationship of the steps of a dance having a prescribed relationship as above without a prescribed location on the skating surface. b) SET - Steps of a dance having a prescribed relationship as above AND with certain steps that are required to be executed at the ends of the skating surface. PERFORMANCE The physical, emotional and intellectual involvement to the skater / couple/ teams to the intent of the music. PHRASE A short musical expression or group of measures. The number of measures to each phrase varies with the type of music.		
OUTSIDE EDGE A curve wherein the outside of the employed foot is towards the center of the curve being skated. OVERHEAD LIFT A lift where the woman is held aloft (above the man's head) by using one or both arm: extended above his head in a locked position. PAIRS SKATING A free skating event in which a team of a man and a woman perform a series of spins, lifts, jumps, and connecting footwork in unison with a musical selection. PARAGRAPH FIGURE A school figure using two circles, which requires the completion of both circles on each take-off. May or may not involve one-foot turns. PARALLEL a) POSITION - relationship of partners wherein hips and shoulders are parallel to each other. b) TAKE OFF - both feet directly alongside each other and on the same arc at the same instant of weight transfer. The trailing wheels of the thrusting skate hold the weight while the skate holds the line into the strike zone. The leading wheels slide until the skate is in a position not quite parallel to the long axis, stop, and thrust sharply (but not violently) from the outside of the thrusting skate. PLACEMENT a) In competition, the rank achieved by a contestant or team. b) In figure skating, the location of turns and take-offs of a specific figure.		
skating foot. PIVOT In figure skating: a movement during the change of feet at circle intersections to facilitate the thrust required for sufficient momentum, and still allows the required tight closure of the circle. The trailing wheels of the thrusting skate hold the weight while the skate holds the line into the strike zone. The leading wheels slide until the skate is in a position not quite parallel to the long axis, stop, and thrust sharply (but not violently) from the outside of the thrusting skate. PLACEMENT a) In competition, the rank achieved by a contestant or team. b) In figure skating, the location of turns and take-offs of a specific figure.	PIGEON TOE

b) In figure skating, the location of turns and take-offs of a specific figure.		
	PLACEMENI	
PLACING Any step, which takes the floor without a gliding motion. A chopped stroke.	DI A CINIC	
	PLACING	Any step, which takes the floor without a gliding motion. A chopped stroke.

PLANNING	A system of body inclination employing horizontal and parallel alignment of the head, shoulders, and hips to the center of the arc.
POSITION	a) The relation of the members of the body to the torso.
	b) The relation of partners to each other.
	c) AND - a parallel relationship of the free foot to the employed foot through which
	or from which the free foot passes while stroking.
POSTURE	Body position used by a skater, which will create a vertical baseline through the body.
PROFICIENCY	A group of dances, school figures, or free skating items intended to classify the level
ACHIEVEMENT TEST	of development of an individual skater.
PROGRAM	The presentation by a skater or team of any organized system of skating movements,
	either original or standardized.
PROGRESSIVE	A step that passes the old skating foot.
	a) CROSSED - a progressive in which the new tracing foot crosses the old.
	b) IN LINE, a progressive for which the new tracing footsteps in line with the old. See
	also RUN
PROGRESSION	Movement of a skater or skates on the surface from one location to another in a
TROOKESSION	continuous manner.
PURE EDGE	An arc of a given circle. An edge without variation in the degree of curvature.
QOE (Quality of the	Refer to Rollart, the System.
element)	
RECORDING	In music, a musical composition reduced to some medium for reproduction over a
RECORDING	sound system. In scoring, the act of reducing judge's grades to score sheets or cards,
	including tabulation and completion of records.
REFEREE	A commissioned official appointed by the director of a contest to discharge the duties
KEIEKEE	as required by rule and prescribed for the contests to be skated.
RHYTHM	In music, the regularly repeated long and short, as well as strong and offbeat notes
	which give a type of music its own individual character. In skating, the movement of
	the skater's body in harmony with the music, or in harmonious relation with the
	movement being skated.
RISE	The raising of the body by action of the employed leg or knee.
RISE AND FALL	An interpretive raising and lowering of the body to impart rhythm and flow to a dance
RISE AND I ALL	or program.
ROCK BACK	The transference of body weight from the leading skate to the trailing skate without a
ROCK BACK	change of speed.
ROCKER	A one-foot turn from a forward edge to a similar backward edge, or vice versa, with
ROCKER	the rotation continuous with the initial edge, and with the cusp inside the original
	circle.
ROCKOVER	a) A preparatory body weight shift from one side to a flat to the other to permit a
ROCKOVER	parallel relationship of the skates at the point of take-off, necessary when moving
	from an edge on one foot to a similar edge on the other foot.
	b) A preparatory change of lean to permit a graceful transition from one lobe to the
	next lobe.
ROLL	a) REGULAR - a natural movement of the skates and the body from one edge to a
ROLL	similar edge.
	b) CROSS - a stroke from one edge to a similar edge with the free leg moved across
	the employed leg before the stroke. c) IRREGULAR - a change of edge at the beginning of a stroke wherein the initial edge
ROTATION	is held for less than one beat of music.
NU LA LIUN	A circular motion of the torso in a horizontal plane. A movement of the torso around
	the posture baseline.
	a) CONCENTRIC - rotation of partners at the same time around the same team
	posture baseline. Rotation of partners at the same time on the same arc.
	b) NON-CONCENTRIC - rotation of one partner while the other continues in the initial
	direction. Rotation of both partners at the time when each member of the team turns
	on a diverging arc.
RUN	A movement in which the free foot, during the period of becoming the skating foot,
	passes the original skating foot, thus bringing the new free foot off the skating
	surface, trailing the new skating foot. Also, called a PROGRESSIVE.

SALCHOW	A jump that starts on the LIB and land on the ROB. Clockwise the take-off is on the RIB and landing on the LOB.
SCHOOL FIGURE	A prescribed movement symmetrically composed of at least two circles, but not more than three circles, involving primary, or primary and secondary movements, with or without turns. School figures are skated on circles, which have been inscribed on the skating surface in one of three official sizes (see Size).
SCISSORS	A Primary source of momentum employing side pressure movement of both skates on the surface while the skates are parting and pull of both skates on the surface while the skates are closing.
SCORE	The total of the grades given a skater by an individual judge for the requirements of a contest. Same as Mark.
SCORER	An official who records the marks of the contestants as given by the judges onto official score sheets for tabulation.
SEQUENCE	A related series of steps and/or turns.
SERPENTINE FIGURE	A school figure employing three circles, one and one-half circles being executed on each take-off with a change of edge after the first half circle, without turns.
SHADOW SKATING	Skating movements done simultaneously by all partners without contact. Shadow movements are allowed only in pairs skating.
SHOOT THE DUCK	In free skating, a forward or backward movement on any edge or flat with the body bent in sitting position.
SHORT AXIS	See Transverse Axis.
SIDE PRESSURE	A primary source of momentum employing pressure against the side of the skate which is becoming unemployed, or in the case of Scissors movements, employing pressure against the sides of both skates at the same time. The term side push is often used to mean side pressure
SIZE	In figure skating, the dimension of the circles, measured by diameter, inscribed on the skating surface for use in skating school figures. Official sizes permitted are: Loops - 2.4 meters; all other figures - five or six meters at the skater's option, with five meters being used only for Proficiency Achievement tests.
SKATE LENGTH	In figure skating, the measurement of the skate from axle to axle used to determine the depth of turns, strike zones, etc. Axles are used to determine skate length since it is at that point where the wheel makes contact with the skating surface.
SKATING ORDER	The order in which the contestants perform in a contest.
SKATING SKILLS	Cleanness, sureness, edge control and flow over the skating floor, the clarity of technique and effortless power to accelerate and vary speed. Use of deep edges, steps and turns; Balance, rhythmic knee action and precision of foot placement; Flow and glide: Multi directional skating; use of one foot skating.
SLIDE	In dance skating, a step wherein the free foot (four wheels) is kept on the surface and moved to a leading position.
SPIN	 In free skating, a series of continuous rotations around an axis which passes through a portion of the body. For credit as an item in a free skating test program, a spin must have at least three rotations on each required edge and position. a) TRAVEL - a spin in which the axis moves. b) CENTERED - a spin in which the body remains in a standing position. d) SIT - a spin in which the hip is as low as the tracing knee (or lower). e) CAMEL - a spin wherein the body is in a continuous line from head through free foot while remaining parallel to the skating surface. f) LAYBACK or INVERTED CAMEL-a spin in camel position with hips and shoulders front side up g) TOE - a spin on the toe rollers of one skate. h) HEEL - a spin that involves a change of feet. j) COMBINATION - a spin wherein the spinning foot traces an edge. l) TOE STOP - a spin executed on the front rollers and the toe stop of the employed skate.

	m) CROSS FOOT - A spin with both feet on the surface in crossed position, on outside
	edges, one backward and one forward.
	n) FAKED CROSS FOOT - a spin with both feet on the surface in crossed position, but
	with only one foot employed or with both skates on opposite edges, traveling in the
	same direction.
	o) TWO FOOT - a spin requiring both feet for execution. A version of this is the HEEL
CDID 44	AND TOE, using the heel rollers of one skate and the toe rollers of the other.
SPIRAL	a) A curve, which constantly approaches or recedes from the center around which it
	revolves.
	b) In free skating, an arabesque movement.
SPLIT	In dance, a forward or backward movement with both employed skates on the surface.
	It can be accomplished in one of two ways: with all eight wheels on the surface, or
	with the leading wheels of the leading skate and trailing wheels of the trailing skate
	raised from the surface. In free skating, a jump or leap in which the legs are extended
	front and back as far as possible. See also Jump.
STAG	Free skating movement. See Jump.
STANCE	A stationary position preceding a start.
START	In dance or figure skating, the beginning of a movement from a stationary position.
STARTING STEPS	See Opening Steps.
STEERING	An unnatural movement or positioning of any part of the body to control the direction
	or path of the employed skate.
STEP	Maintaining or transferring body weight from one foot to another and by keeping or
	changing direction of the skate: mohawk, choctaw, cross rolls, runs, chasses, hops,
	shuffle, slalom, scissors, toe steps, change of edges.
	Note: Difficult steps must be executed on one foot. Half rotations or one rotation
	jumps on one or two feet are not considered a step/turn. Skating forward then turning
	backward is not a change of direction.
STRAIGHTAWAY	The area of the skating surface permitting the greatest linear dimension parallel to a barrier. The skating area of greatest length.
STRIKE OFF	The starting or initial edge of a school figure.
STRIKING FOOT	The new tracing foot taking the floor during a take-off.
STROKE	A step executed so as to impart momentum.
STROKE	a) CHOPPED - a stroke for which the new skating foot is placed on the skating surface
	without a gliding motion. A placed step.
	b) FULL - a stroke employing a gliding motion of the new tracing skate.
STYLE	The individual expression of the skater or team. In free skating, expression without
	requirement. The International Style is an expression within the system prescribed and
	accepted as standard.
SUB CURVE	An unintentional deviation from the arc required.
SUM	The total of the individual scores given by a single judge to a contestant or team.
SUPERIMPOSITION	In dance and figure skating, successive, invisible tracings upon an original tracing.
SWING	In dance skating, a stroke in which the free foot leaves the floor in a trailing position
	and is swung in the direction of travel to an extended position and then returned to
	the skating foot in preparation for the next step. A controlled movement of the free
	leg from trailing to leading position or vice versa. Strictly defined for skating purposes,
	a swing of the free leg should be from a trailing position to the leading position (or
	vice versa) with both positions matched as to height from the skating surface, relation
T (D (U) T (D) (U) T (D) (U) T (D) (U) (U) (D) (U)	to the body, and relation to the employed skate.
TABULATION	The act or result of processing the judge's marks in an event of a contest, and thereby
	determining the order of placement of the contestants. Also called Calculating.
TABULATOR	Also called a Calculator. An official whose duty it is to process the judges' marks in an
	event of a contest, and thereby determine the order of placement of the contestants
	or teams. The Chief Tabulator often has the additional duties of checking in the
	skaters, supervising the drawing of skating order or arrangement of flights and heats,
	and preparing the official forms for each event.

TAKE OFF	The beginning of a new edge or flat from another edge or flat.
	a) CORRECT - a take-off employing a smooth transition from one foot to the other without placing, hitching, jumping or any other stiff, unnatural movement. A clean
	take-off.
	b) TWO FOOT - an incorrect movement during which the skater rides both skates for a noticeable distance.
	c) TOE STOP - an incorrect movement where the toe stop is used to help impart
	momentum.
	d) INITIAL - a Strike-Off.
	e) The leaving from the floor on any jump or lift.
TECHNICAL MERIT	a) The actual items performed by a skater or team.b) The actual grade given by a judge for the items, which constitute such a program.
ΤΕΜΡΟ	In music, the pace and speed of a musical composition. In skating, the number of skater's counts per minute.
THOREN	A full rotation jump that connects to others with no technical value. A clockwise
	rotation starts LOB and land RIB, whilst counterclockwise the take-off ROB and landing on LIB.
THREE	A one-foot turn from a forward edge to an opposite backward edge or vice versa, with
	the rotation in the direction of the initial edge, and with the cusp inside the circle.
	a) DROPPED - a three turn in which the concluding edge is held for less than one beat of music, with the next step stroked on the next succeeding beat of music.
	b) HELD - a three turn in which the concluding edge is held for more than one beat of
	music.
THROW JUMP	In pair skating, a movement in which the woman performs a recognized jump, being assisted by her partner in the take-off.
THRUST	A lunge with both feet together on the floor; one knee is very bent and pushed
	forward, the other leg is stretched back WITH THE TWO INSIDE WHEELS ON THE SKATING SURFACE (Castel March - step n°28b).
THRUSTING FOOT	The old tracing foot on which pressure is exerted to produce momentum during take- off.
TIME	The time indicated by the stop watches and recording of the appropriate official. In
	dance and free skating, the elapsed time used by a skater or team. See Maximum and Minimum.
TIMING	The relationship between the accent of the music and the steps skated.
TOE LOOP	A loop jump with a toe plant. Clockwise rotation starts LOB to LOB and
	counterclockwise is from ROB to ROB,
TOE POINT	In dance skating, a required contact with the skating surface of the toe roller or rollers
	of the unemployed skate. A FRONT TOE POINT is accomplished with the outside front
	roller in front of the body without regard to direction of travel. A BACK-TOE POINT is accomplished with the inside front roller behind the body without regard to direction
	of travel. In free skating, the use of the toe stop of the unemployed skate to assist the
	take-off and/or landing of a jump as provided in the description and requirements of
	the jump executed.
TRACE - TRACING	The real or imaginary mark showing the path of the employed skate.
	Employed, in use.
	a) FOOT - the employed foot.b) KNEE - the knee of the employed foot.
	c) SKATE - the skate on the surface. The employed skate.
TRACKING	The superimposition of tracings of partners.
TRANSITION	In Figures: A change from one edge to another; a change from one circle to another; a
	take-off.
	In Free skating, Pairs, Dance, Precision, and Show: One or more intricate steps,
	positions, movements and holds that link all technical elements (jumps and spins).
	Criteria: variety, difficulty, intricacy, quality including unison in pairs, dance and synchronized skating), balanced of workload between partners in pairs and dance,
	variation of speed and linking steps with synchronization and variation of changes of

TRANSVERSE AXIS	In figure skating, also called a short axis. Imaginary straight lines which cross the long axis at right angles to the point of tangents of the circles. In dance skating, an imaginary line which bisects the width of the skating surface.
TURN	 A change of direction of skate or skates. a) ONE FOOT - a turn without a change of feet. Bracket, Counter, Rocker, Three. b) TWO FOOT TURN - a turn produced with both feet by changing from one foot to another. See Choctaw and Mohawk. c) OPEN - a turn with the free leg behind the body after the turn. See Choctaw and Mohawk. d) CLOSED - a turn with the free leg in front of the body after the turn. See Choctaw and Mohawk.
	 e) HELD -a turn of which the concluding edge is held longer than one beat of music. See Choctaw, Mohawk, and Three. f) DROPPED - a turn of which the concluding edge is held less than one beat of music,
	with the next succeeding step occurring on the first beat of the music after the turn. See Choctaw, Mohawk, and Three.
	 g) PULLED - An incorrect movement wherein the skater uses some part of his body to increase the momentum of the tracing skate during the execution of a one-foot turn. h) JUMPED - an incorrect movement during which more than one wheel of the employed skate leaves the skating surface during the execution of a one-foot turn. i) LOOP - refer to loop.
	NOTE: Turns must show clear edges before and after the change of direction. Cusps must be clear. Difficult steps and turns are twizzles, brackets, loops, counters, rockers, choctaws. Steps and turns must be executed on one foot. Half rotations or one rotation jumps on one foot or two feet are not considered a turn or a step. Skating forward then turning backward is not a change of direction. In addition, if a turn is jumped, it will not be counted as performed.
TWIZZLE	A complete revolution one-foot turn comprising, in one movement, a short counter followed by a halfback three turn.
TWIZZLE-TANGO DELANCO	A complete revolution one-foot turns comprising, in one movement, a short inside three turn followed by a halfback three turn.
UNITY	The harmonious performance of identical or compatible skating movements by partners.
WEAK BEAT	See Beat.
